

BUSINESS UNLIMITED

Sophisticated System. Low Cost. No Hassle.

With Northland's hosted solution, you can have it all.

Your system and services are custom designed for your business, to give you every feature you need, at a low monthly price you will love.

- + HD voice and video
- + Call forwarding or transferring
- + Personal conference bridge
- + Mobility
- + Cloud Fax
- + Paging

What if there is a new feature?

You'll get them too, with a software update sent directly to your phone system, at no additional cost.

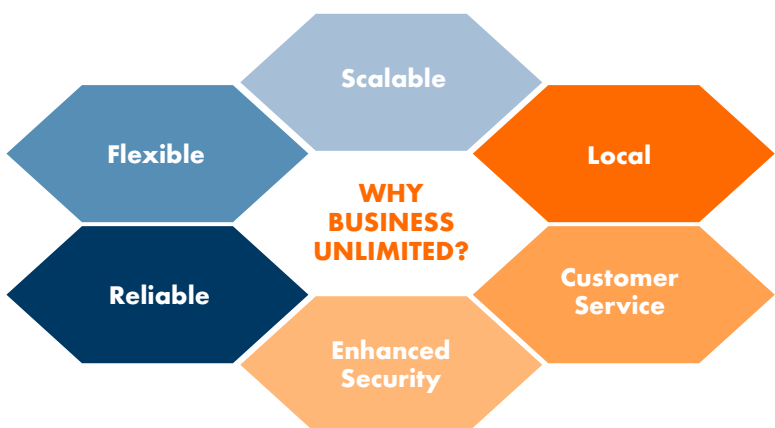

Let your team be more productive, and benefit from the savings.

Imagine if your employees could work from home, a hotel, or the golf course, while still being connected to the telephone system at the office. With the ability to transfer calls, have music on hold, set up conference calls, or have the line answered with an automated system, there is a seamless connection between the office and the caller, every time.
