

PROBLEM: YOUR CURRENT PHONE SYSTEM

SOLUTION: IP OFFICE

Your current phone system has taken you this far and will no longer be supported by the manufacturer. It's time to start thinking about a new one before it's too late.

Current Phone System

- + End of life
- + Product support is no longer available
- + Limited qualified support staff available

New Phone System

- + Integrate with third party applications
- + Security improvements and better features
- + Up-to-date with new applications from vendors

What is IP Office?

Avaya IP Office is the right choice for small and medium size businesses. Supporting up to 3000 employees, it is the perfect solution for start-ups and more established businesses, whether you operate from a single office, a home office or across multiple stores or locations.

Benefits for you:

- + Reliable availability at a high level
- + Reduce staff workloads and improve efficiency
- + Integration of all important channels of communications
- + Time and money savings

What You Have Been Missing Out On:

- + Integrated Cell Phone Twinning
- + Integrated Call Recording – Email Storage
- + Integrated Meet Me Conference Bridge
- + Contract/Call Center Application
- + Call Reporting Application
- + Voicemail to Email Intergration

Loyalty2gether Promotion*

This promotion focuses on helping customers move from the Nortel installed base CS1000/BCM/Norstar by utilizing ASIPP (Avaya Software Investment Protection Policy) to upgrade to Avaya IP Office R11 and by adding aggressive discounts. ASIPP provides discounts in User licensing from moving from Analog, Digital and IP to a new IP solution, also discounts in Voice Mail ports if applicable. Customers can choose to stay with an Analog and Digital solution but the aggressive ASIPP license discount will not apply. Avaya has released a new series of telephones with the release of the Avaya IP Office that customers can take full advantage of. This is a limited time offer. Offer ends September 2019.*

ARE YOU MAKING YOUR 2019 BUDGET?
