

BUSINESS UNLIMITED

Sophisticated System. Low Cost. No Hassle.

With Northland's hosted solution, you can have it all. Your system and services are custom designed for your business, to give you every feature you need, at a low monthly price you will love.

- + HD voice and video + Mobility
- + Call forwarding or transferring + Auto Attendant
- + Personal conference bridge + Paging

What if there is a new feature?

You'll get them too, with a software update sent directly to your phone system, at no additional cost.

Increase productivity. Imagine if your employees could work from home, a hotel, or the golf course, while still being connected to the telephone system at the office. With the ability to transfer calls, have music on hold, set up conference calls, or have the line answered with an automated system, there is a seamless connection between the office and the caller, every time.

COST STRUCTURE AND PROMOTION DETAILS

With our cloud-based solution, customers enjoy an affordable monthly cost per user, rather than a large up-front investment cost.

For a limited time only, we are offering Mitel 6867i or 6863 phones at no charge. The value of each phone is up to \$200.

Customers who choose to use the software-based phone provided by Northland, the Accession Client, can receive a \$5.00 discount per month, per Accession user, from the standard pricing schedule.

Contract Required. Offer ends May 31, 2020. Additional terms and conditions apply. See contract for details.
