

BUSINESS UNLIMITED

Transform the way your business communicates.

Business Unlimited is a cloud-based, unified communications solution. It's your phone system, your video meeting platform, your instant messaging tool, and so much more.

Benefits:

- + **Mobile:** Work remotely, or at the office, using any device!
- + **Flexible:** Easily scaled to meet your needs.
- + **Future-Forward:** Software upgrades continuously enhance your system.
- + **Affordable:** Low up-front investment, pay monthly for your solution.

What is Unified Communications?

Unified Communications, also known as UCaaS, is technology that allows users to access multiple services through a single interface.

Northland's Business Unlimited solution brings all of your communication and collaboration into one place.

TECHNOLOGY TAILORED TO YOU

Customize your solution to meet your needs! Mix and match our three licensing tiers.

Premium User: Ideal for employees looking to switch seamlessly between remote and office work. This feature-rich license exclusively offers our virtual meeting solution, MaX Meeting.

Standard User: Designed for professionals on-the-go, this license mobilizes your phone system with our MaX UC soft-phone client. Users gain access to mobile and desktop phone applications.

Value User: Perfect for your primarily office-based staff, this license features our cloud-based VoIP desk phones and CommPortal self-management tool. All customized to your business needs.
