

Did You Know....

Northland's Business Unlimited solution is powered by the same technology as Zoom, RingCentral, and 8x8?

Whether you are in the office, at your kitchen table, or in your car, you need reliable technology to stay connected to your team and your customers.

Our cloud-based solution, Business Unlimited, centralizes your communications in one secure, easy-to-use app. It's wherever you need it with all the features you have come to expect. Engage anytime, anywhere, in any channel, while having a local team dedicated to you - with just one click. Why partner with a national provider when you have all of that with a local partner right in your backyard?
