

**A UNIFIED  
COMMUNICATIONS  
SOLUTION FOR YOUR  
ENTIRE DISTRICT**

## Increase **collaboration** with a **cloud-based technology solution**

One of the best solutions to ensure your schools stay up-to-date and meets ever changing demands of modern technology is moving to the cloud. Our Business Unlimited technology provides a platform to easily communicate and increase collaboration between your schools, your teachers, and your administration while also decreasing drive time between locations by giving you the ability to meet virtually.

Business Unlimited allows you to utilize resources and hardware you already have while expanding your capabilities. You can connect faculty across the school and district with video staff meetings for better alignment and clarity and communicate important safety information via audio and video to all schools in the district.

**“Business Unlimited is powered by the same technology as Zoom, Ring Central, and 8x8.”**

Our Business Unlimited solution allows you to mobilize, unify, and transform your classrooms with just one click. That means you can engage with anyone, anytime, anywhere, in any channel using any device, while having all the features you have come to expect from national competitors.

## WHAT YOU CAN EXPECT WITH NORTHLAND'S BUSINESS UNLIMITED SOLUTION

---

+ **Mobility:** Expand traditional classrooms with video communications to meet the growing needs of today's students.

+ **Reliability:** Fully encrypted, end-to-end

+ **Security:** Northland runs on Arista, giving our customers the highest security in the industry. It gives us better support in seconds and increases access to care when needed most

+ **Partnership:** When navigating how future generations of students learn, you don't want to be just a number. You need a partner who knows you, your district, and your community.

+ **Local Support:** 24/7 support with 1-hour response times and local technicians who are minutes away

+ **Real People:** No waiting in long call queues or dialing 1-800 numbers. Talk with a real person, every time

***Are you ready to transform your telecommunications solution?***

# TECHNOLOGY TAILORED TO YOU

**Customize your solution to meet your needs! Mix and match our three licensing tiers.**

**Premium User:** Ideal for switching seamlessly between remote and classroom work. This feature rich license exclusively offers our virtual meeting solution, MaX Meeting.

**Standard User:** Designed for the on-the-go user, this license mobilizes your phone system with our MaX UC soft-phone client. Users gain access to mobile and desktop phone applications.

**Value User:** Perfect for your primarily office-based staff, this license features our cloud-based VoIP desk phones and CommPortal self-management tool. All customized to your business needs.
