

A UNIFIED COMMUNICATIONS SOLUTION FOR YOUR ENTIRE ORGANIZATION

The last two years have **transformed** the way businesses communicate + collaborate.

Hybrid and remote working environments have required businesses to find ways to adapt to easily and efficiently work together. As employees and clients alike are now more familiar and comfortable with remote work, it's hard to imagine asking them to go back to the way things were. The demand is only going to grow; now is the time to move your approach from reactionary to strategic.

Northland Communications' cloud-based communication & collaboration platform helps you reach more clients, more efficiently.

**“Business Unlimited
is powered by the
same technology as
Zoom, Ring Central,
and 8x8.”**

Our Business Unlimited solution allows you to mobilize, unify, and transform your client appointments and communicate with your employees with just one click. That means you can engage with anyone, anytime, anywhere, in any channel using any device, while having all the features you have come to expect from national competitors.

WHAT YOU CAN EXPECT WITH NORTHLAND'S BUSINESS UNLIMITED SOLUTION

+ **Mobility:** Have the ability to utilize remote working options with cloud-based, data-driven solutions

+ **Reliability:** Fully encrypted, end-to-end

+ **Security:** Northland runs on Arista, giving our customers the highest security in the industry. It gives us better support in seconds and increases access to care when needed most

+ **Partnership:** We understand the benefits, risks, and proposed strategies to ensure a quality connection between you and your clients is critical

+ **Local Support:** 24/7 support with 1-hour response times and local technicians who are minutes away

+ **Real People:** No waiting in long call queues or dialing 1-800 numbers. Talk with a real person, every time

Are you ready to transform your telecommunications solution?

TECHNOLOGY TAILORED TO YOU

Customize your solution to meet your needs! Mix and match our three licensing tiers.

Premium User: Ideal for employees looking to switch seamlessly between remote and office work. This feature rich license exclusively offers our virtual meeting solution, MaX Meeting.

Standard User: Designed for professionals on-the-go, this license mobilizes your phone system with our MaX UC soft-phone client. Users gain access to mobile and desktop phone applications.

Value User: Perfect for your primarily office-based staff, this license features our cloud-based VoIP desk phones and CommPortal self-management tool. All customized to your business needs.
